### Electrocuted

Scientists and electricians cannot agree upon the number of electric volts that are necessary to cause a cessation of life in the human body. Some claim that an excessive shock is more likely to cause incineration rather than instantaneous death; but if they would turn their attention to prolonging and increasing the pleasures of life the public would hail the result with more satisfaction. For instance, the electricity generated in a wave of laughter is, after all, the most pleasant shock, and to see a large assembly moved by a current of uncontrollable mirth while witnessing the performance of Fitz and Webster's newest, "A Breezy Time," places beyond dispute the fact that large volts of laughter are better than volts of electricity, any day. "A Breezy Time" will be seen at the Marion Opera House on Thursday, Dec. 5.

"I was much afflicted with sciatica," writes Ed. C. Nud, Iowaville, Sedgewick Co., Kan., "going about on crutches and suffering a deal of pain. I was induced to try Ballard's Snow Liniment, which relieved me. I used three 50c. bottles. It is the greatest liniment I ever used; have recommended it to a number of persons; all express themselves as being benefited by it. I now walk without crutches, able to perform a great deal of light labor on the farm." 25c 50c, \$1.00. Anti-Monopoly drug store. m

### Some Fine Oranges.

The Ocala Banner office is under obligations to Mr. A. J. Leavengood for a box of fine oranges from his Manatee county grove. They are of good size and excellent flavor, reminding us of the Marion county orange "before the freeze." Mr. Leavengood returned Sunday night from South Florida where he has quite a large patronage for his tombstone business in this city. His exhibit in this line at the Tampa fair was quite an attraction.

### Listen at this Song to Winter.

Blessed Florida! And now at this moment when all nature, both animate and inanimate, on the eastern shores of the continent is locked in the icy fetters of the Arctic king, here in this land of warm and genial skies, we linger in the lap of summer, enjoy her rare gifts free from the region of chilly blasts and a landscape made bleak and drear by the congealing breath of old Boreas. This is the most delightful resort on the continent—June weather the year 'round.—Gainesville Star.
